MEMORANDUM FOR: Harry

Re the request for you and/or OGI to brief a Congressional committee on the energy situation that we received yesterday, [] called again this morning to add that it is suggested that your oral statement to the committee be no longer than about 20 minutes (whereas the sky's the limit on the formal written statement due beforehand.)

(I guess I was wrong yesterday in telling you that the DCI and DDCI probably didn't know of this briefing request; they evidently do, even tho there is some confusion about the channels by which this whole request are being handled.)

[] called. He says the Congressional briefing on energy is something that either you or he should do, not [] He'd prefer that you give the briefing and he would back you up.

Please give him a call when you're ready to sort it out with him.

OGI feels the Agency would more appropriately be represented at this hearing by Mr. Rowen or his designate on the NIC with back-up from OGI.

As you can see from my memo to OGI, we do not have much substantive information to work with, and the CIA principals probably will have to talk directly with Useem and the representatives from State, Treasury and Energy to discern who covers what topic.

Could you float this with the NIC hierarchy?

Dear Mr. Casey:

On February 18 and 21 the Committee on Energy and Natural Resources will hold a hearing on the "World Petroleum Outlook." On behalf of the Committee, I would like to invite you or your designated representative to appear at the February 18 hearing to provide the Agency's views on these matters.

The hearing will begin at 9:00 a.m. in room S-407 of the Capitol building and attendance will be restricted to those with a top secret clearance.
